SHIPPING RATE CASE

Chicago, Ill., Jan. 20.—Much interest centers in the complaint of Minneapolis merchants against the Boston & Maine and other railroads, which has been set for hearing before the Interstate Commerce Commission here today. The case involves the question whether the railroads have the right to raise rates on the shipment of goods from the East by way of the Great Lakes to Minneapolis, so as to include marine insurance.

CHAMPION BICYCLISTS

Kansas City, Mo., Jan. 20.—Presenting an array of champion bicyclists, such as has never before been seen in the West, the first of a series of races for the American long-distance championship, was started in Convention Hall this afternoon. It is to be a six-day, eight-hour, contest. Root, Fogler, Moran, Downing and others who took part in the recent six-day race in New York are among the contestants.

MINERS' CONVENTION

Indianapolis, Ind., Jan. 20.—The headquarters-officers of the United Mine Workers of America have completed all the arrangements for the nineteenth annual national convention of the organization, which will be called to order at 10 o'clock tomorrow morning in Tomlinson Hall. The convention will be a most representative one, more than 100,000 organized men being represented. President John Mitchell, who declined re-election on account of ill health, will turn over the presidency to his successor.

UNITE BUILD- ING UNIONS

Washington, Jan. 20.—Matters of more than usual importance to organized labor are to be considered and acted upon at the meeting begun at headquarters today by the executive council of the American Federation of Labor. Many disputes among rival unions are to be settled, but most important of all will be the changes to be made in administration. One of these will be the permanent organization of the new building trades department, preliminary plans of which were discussed at a meeting held in New York some weeks ago. The new department is to embrace all the building trades' unions in the country, in accordance with the proposal made at the last annual meeting of the Federation at Norfolk. It is said that the new organization will have a membership of over 1,000,000.

PLAN MODEL LIQUOR LAW

Louisville, Jan. 20.—Alarmed at the wave of prohibition that has recently swept the country, leading brewers, distillers and liquor dealers will meet here in conference tomorrow, to discuss the situation. The specific purpose, as set forth in the call for the conference, is to place the trade right before the American press and public, and to offer to society a model license law as the solution of the great problem of regulating the liquor traffic.

PLANS PUB- LIC OWNERSHIP

London, Jan. 20.—Public ownership and control of all the means of life occupies the foremost place in the list of topics scheduled for discussion at the eighth annual conference of the British Labor Party, which began at Hull today, to continue until Thursday. The Amalgamated Society of Engineers, probably the largest and wealthiest labor body in the world, will introduce one of the most definite and far-reaching propositions looking to public ownership. It has been framed in the following terms: "That, in the opinion of this conference, the time has arrived when the Labor party should have as a definite object, the socialization of the means of production, distribution and exchange, to be controlled by a democratic state in the interest of the entire community, and the complete emancipation of labor from the domination of capitalism and landlordism, with the establishment of social and economic equality between the sexes."

DEMOCRATIC ARRANGEMENTS

At the commencement exercises in June, the university will dedicate a new \$100,000 library building.

Entered at the Postoffice in Bryan, Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, JANUARY 21, 1908.

The sidewalk building microbe is at work in Bryan. May he live, multiply and prosper.

A Cincinnati girl won a rich husband by a drawing she made to illustrate a soap advertisement.

A foreigner who wanted to become a citizen, in answer to a question, said: "God made Congress." Of course his application for naturalization was rejected.

Comptroller of the Currency Redgeley says panics are inevitable. Bishop Malthus said the same of poverty and misery; but all such assertions are contrary to the teaching of the Man of Galilee.

Ball room pedometers, a device to show the distance traveled in a dance are becoming a fad. They are going to surprise some people who would faint if they thought they had to walk that far.

Since by common consent ladies have the right to make proposals of marriage during Leap Year, it follows, as a matter of course, that gentlemen have not that right. In justice to her sex, every lady should feel bound to resent a proposal made to her—as a usurpation of her prerogative.

State Health Officer Brumby has announced the opening of a campaign of sanitation, with the special object of safeguarding against yellow fever. In the parts of the state south of the 31st parallel and east of the 100th meridian, he will call on all city, town and county officers to eradicate the deadly stegomyia by cleaning out all possible breeding places of mosquitos, so that these disseminators of pestilence shall not be alive in case it should become epidemic. The 31st parallel passes north of Brazos county, so that we are included in the territory subject to the regulations. The Eagle has often called attention to this subject and hopes Dr. Brumby's initiative will be promptly acted on by both the city and county authorities. Remember the importance of "the stitch in time." We don't need the mosquitos—fever or no fever.

DUKHUBORS OBSTINATE.

Band of Russian Fanatics Are Constantly Watched.

INSIST UPON GOING NUDE.

Effort Is Being Made to Transport a Singular Sect, Who Do Not Believe It Right to Wear Clothing, Back to the Land of Their Birth.

Duluth, Minn., Jan. 20.—The Dukhubors, who recently arrived at Fort William, on the northern coast of Lake Superior, from eastern Canada, have to be watched night and day to prevent their appearance in a nude condition and the local authorities are at a loss to what course they shall pursue in regard to the zealots. A traveler in Duluth from Fort William said that the authorities there are trying to arrange with the Russian government to bear the expense of transporting the Dukhubors back to Russia, but that thus far their efforts have been unfruitful.

The Russian authorities asked for the names of the religionists, but the members of the sect refuse to divulge them.

The Dukhubors are without money and the people of Fort William have cared for them. Recently, however, the town was scandalized by the appearance of all the Dukhubors in the street in a nude condition. They were hurried back to their quarters and compelled to don their clothes.

MUTUAL RESERVE LEAVES.

Notifies Insurance Commissioner It Will Not Renew Its Permit.

Austin, Jan. 20.—The Mutual Reserve Life Insurance company of New York has notified the insurance commissioner that it would not make application for authority to do business in Texas this year. This is the company that was suspended by the insurance department last week on account of the alleged impairment of its capital stock.

The Pullman Palace Car company paid the comptroller \$5,471, gross receipts tax for the past quarter. The gross receipts for the quarter in Texas amounted to \$109,857.

State Treasurer Sparks issued another call for funds on all state depositories. He expects this call to net about \$80,000.

Tax Commissioner Davis and Assistant Attorney General Pollard leave for Wichita Falls, where they will represent the state in the suit that has been instituted by the Wichita Falls railroad enjoining the tax collector from collecting more than 50 per cent of the intangible tax assets against that road. The case will come up for hearing on the 23d.

FORT WORTH FACTS.

Rate Clerks Meet, Maddox Gives Bond, Hudson Pleads Guilty.

Fort Worth, Jan. 20.—Rate clerks representing sixteen Texas trunk railway lines are in session here revising passenger rates from Texas to points east of the Mississippi river. Their deliberations will continue for two weeks.

Palmer Maddox, nephew of Chief of Police Maddox, was arrested and charged with the murder of Dan Gallegos, pitcher of Fort Worth baseball team, who succumbed Sunday night of wounds received during a fight. Maddox made bond in the sum of \$1,000.

John Hudson, aged nineteen years, pleaded guilty in district court to charge of killing Nelson Chapman, a negro, last September. He was given two years.

WORK SEEKERS MARCH.

Over One Thousand Persons Parade Streets of New Britain.

New Britain, Conn., Jan. 20.—Over 1,000 unemployed workmen paraded the streets Monday, the leader carrying a banner bearing this inscription, "Parade of Hungry People Looking for Work." It was explained by some of the leaders that "Hungry" in this case meant the men were hungry for something to do—not that they were suffering from the pangs of physical hunger.

Poles, Germans, Lithuanians, French and Italians composed the majority of the marchers.

Much Loss by Fire.

Winston-Salem, N. C., Jan. 20.—Fire here did nearly \$80,000 damage.

METHODIST STEWARDS MEET.

The board of stewards of the Methodist church held a meeting Sunday afternoon for the transaction of business. T. C. Nunn and Malcolm Carnes were elected to membership on the board. The arrangements of the pastor for a revival meeting, announced elsewhere, were approved.

Rev. Turrentine invited the board of the stewards to hold the next meeting at the parsonage and bring their wives, to take part in a social meeting after the business hour.

INTEROCEANIC RAILROAD

Guatemala City, Jan. 20.—The Guatemala Inter-Oceanic Railroad, the first of its kind in Central America, was opened to traffic today. The inauguration of the line was made an occasion for interesting ceremonies which were participated in by the president and other officials of Guatemala and representatives of the various American Republics. Major George W. Davis was present as the representative of the United States, and Mexico was represented by Ricardo Garcia Granados, Mexican Chargé d'Affaires at San Salvador.

SOUTH AMERICAN LINER

New York, Jan. 20.—The "Verdi," a handsome new steamer for the Lamport Holt line, to meet the requirements of the increased passenger trade to South America, sailed on her maiden voyage from New York today, with a large passenger list. The Verdi is a 11,000-ton steamer and has saloon accommodations for 150 passengers.

VISIT OF BISHOP.

Rt. Rev. Geo. H. Kinsolving, of Austin, spent Sunday in Bryan, on his annual visit to St. Andrew's parish and was the guest of Mr. and Mrs. Jas. O. Chance. The bishop preached at the Episcopal church Sunday morning at 11 o'clock, before a congregation which filled the house. The music was excellent, and the bishop preached a strong sermon from the words of Christ to the first two disciples, recorded by St. John, "What Seek Ye?" An application as to the purpose of those who would follow the Master in the present day was forcibly brought out by the eminent churchman.

With reference to securing the services of a rector for St. Andrew's church the bishop stated that he was taking steps to afford the parish an opportunity to make a choice. There having been no rector here to prepare the class, the confirmation rites were not held.

Mrs. J. M. Boxley and Miss Hallie Boxley were visitors from Providence yesterday.

YOUNG NEGRO SHOT.

Difficulty Between Brothers-in-Law Resulted in Shooting of Tom Hill Yesterday.

Tom Hill, colored, received a load of small shot in the right arm and side yesterday afternoon from a gun alleged to have been in the hands of his brother-in-law, Julius Fair. Fair was arrested by Deputy Sheriff Conlee and lodged in jail. From information gathered by Mr. Conlee, it appears that Fair and his wife had separated and that she had gone with her brother after the household effects. The shooting took place after they had left the house and were just this side of Carter's Creek bridge. The young negro, Hill, came to town yesterday afternoon and his wound was dressed by Dr. G. W. Emory. Most of the shot went through the arm, but four of them struck him in the side. It is believed three of the shot penetrated his lungs, according to the opinion of the attending physician, who was unable to state yet what the outcome would be.

TESTIMONY PUBLIC.

No Well-Behaved Person Barred From Courtroom.

New York, Jan. 20.—When the Thaw trial was resumed at 10:20 o'clock Monday morning, Mrs. Evelyn Nesbit Thaw was called to the stand to repeat her story of a year ago. District Attorney Jerome immediately renewed his motion of last Friday afternoon, that the public, including representatives of newspapers, be excluded from the courtroom. He cited a criminal case tried in Monroe county several years ago as a precedent for excluding all persons except those immediately concerned with the trial. Justice Dowling declined to exclude the public. Mr. Jerome objected to Mrs. Evelyn Nesbit Thaw telling the story she told Thaw at Paris, saying there was no precedent for it. Justice Dowling overruled the objection.

Mr. Littleton, for defense, said he desired to leave the matter in the hands of the court. Mr. Jerome said he understood Mr. Littleton to join in the motion when it was made last Friday and did not quite grasp the change of front.

"I said on Friday," retorted Mr. Littleton, "that I would like to shield Mrs. Thaw from the gaze of the idly curious, but as to all points of legality and propriety I reiterate what I said then: The matter rests entirely with the court."

Justice Dowling said he consulted all the authorities cited by the district attorney and could find no warrant under the constitution for excluding the public from a capital case. The harm done by publishing the details of reviling testimony, he added, was more than offset by the safeguards thrown around the defendant by granting him a speedy and public hearing. The court will not exclude anyone who conducts himself with propriety. Mr. Littleton then asked Mrs. Thaw to tell the story of her experience with Stanford White as she told it to Thaw at Paris in 1903 when he asked her to become his wife.

REPEATS HER STORY.

For the Second Time Thaw's Wife Tells Her Sad Narrative.

New York, Jan. 20.—Over the objection of District Attorney Jerome, who declared the recital of an event of three years before the tragedy could have no effect upon the defendant's mental condition at the time he killed Stanford White, Mrs. Evelyn Nesbit Thaw took the witness stand at the trial of Harry K. Thaw, her husband, Monday and told again the story of her alleged experiences as a girl of sixteen at New York; her meeting with Stanford White; of the house, velvet swing and mirrored room—all she declared exactly as she told it to Thaw at Paris in June, 1903, when he asked her to become his wife. The story was told to a filled courtroom.

Young Mrs. Thaw's voice broke at one time during her recital and the defendant also wept, but the electric effect of the testimony as given last year was missing. This was largely due to the course of the district attorney, who interposed an almost continuous stream of objections, and was nearly always on his feet, standing just between the witness and defendant. The attitude of the prosecutor awoke a tone of defiance in Mrs. Thaw's voice and this did not aid her story, but the jury and others listened intently. There was no variance in the recital from last year's narration.

Declared Invalid.

Philadelphia, Jan. 20.—The 2-cent rate law now in force in Pennsylvania was declared unconstitutional by the state supreme court, which handed down an opinion affirming the opinion of the common pleas court of Philadelphia, rendered last September. SEVEN POINTS.

Progressist Party Demands That Many Explanations.

Tokio, Jan. 20.—Members of the Progressist party, at a general meeting which is always held on the eve of the opening of the diet for the purpose of defining a platform, passed resolutions of which the following was a preamble:

"Whereas, The cabinet has shown that it has failed in post-bellum measures by faulty internal administration and the national development has been interrupted, while its weak diplomacy is a stain on the political prestige, thus

COUNT OKUMA.

exposing itself to the national indignation, our party demands the government's explanation on seven points:

Among the seven points, increase of taxation, method of compilation of the budget and weak diplomacy are the principal ones. Count Okuma, leader of the Progressists, did not attend the meeting. The Progressists held eighty-nine seats in the house of representatives. One prominent leader left the party and joined the Constitutionalists.

At the Daido club sixty members of the lower house in the diet issued a manifesto which proclaimed unutterable opposition to the financial policy of the government. This is one of the significant developments of the present situation, because Marquis Katzura, former premier, is recognized as the leading spirit of the Daidos, although he does not lay any claim to the position of leader. This action unites the Daidos with the Progressive party and practically unites the opposition, in which event the government will be defeated in an attempt to carry through the budget. Up to the present moment it was generally believed Marquis Katzura and Prime Minister Marquis Saionji had reached an agreement on the subject.

IS UNCONSTITUTIONAL.

Judge McPherson Rules Adverse to Validity of Missouri Statute.

Kansas City, Mo., Jan. 20.—Judge Smith McPherson in the United States district court here declared void and unconstitutional the statute passed by the Missouri legislature in 1907 forbidding foreign corporations from transferring suits brought against them from state to Federal courts upon pain of forfeiture of their charters. The application of the Rock Island, Santa Fe, St. Louis, Kansas City and Colorado, Milwaukee and St. Paul and Chicago and Alton railway companies for an injunction to prevent John E. Swanger, secretary of state, from enforcing the law, was granted by the court.

The Missouri law on which the decision was based, provides specifically that if any foreign or non-resident railway corporation created and existing under the laws of any other state and doing railway business from any point to another point within the state shall without written consent of the other party remove the case from a state court to the United States court, or shall without said written consent to institute any suit against a citizen of the state in any Federal court, then the secretary of state shall revoke the license to do business from one point in the state to any other point in the state, either in carrying passengers or freight. Any road doing such business shall subject it to a penalty of not less than \$2,000 and not more than \$10,000 for each offense. Such disability shall continue for five years.

It is alleged in this case that complainant was about to remove the case and the secretary of state was to follow by revoking its right to do business. Defendant contends that this is in effect an action against the state in violation of the eleventh amendment to the constitution. Complainant contends the act of 1907 impairs contract with the state and asks equal protection of law if enforced.

Revolutionists Surrendered.

Port au Prince, Hayti, Jan. 20.—Government soldiers attacked the town of St. Marie, held by the revolutionists. The latter surrendered after a slight resistance. The government forces then marched toward Gonaves, which was completely surrounded. The government considers the revolution as practically ended.

Instantly Killed.

Coalgate, Okla., Jan. 20.—John Butcher, a miner, was hit on the head by falling slate and instantly killed.

Police Chief Found Dead.

Darlington, S. C., Jan. 20.—A. E. Dargan, chief of police, was found dead in a room adjacent to his bedroom.
